26 November 2006

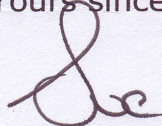

Dear Richard
Beacon for Growth 23rd November 2006

I am writing to say thank you. I could not have wished for a better facilitator. You held the whole day together so skillfully; but with a light touch. You were always there to help the other speakers and I am sure they all felt reassured. As to the support you offered me? It was immense. The whole thing would have been so much more difficult if you had not taken on the role of briefing the other speakers, acquiring their presentations and producing the master presentation.

You helped make the whole experience look and feel very professional

Thank you and I hope we can work together again

Yours sincerely

Sue Baker
Project Director
Beacon South West
